The Discover[®] U.S. Spending MonitorSM is a monthly index of consumer spending intentions and capacity that is based on interviews with a random sample of 8,200 U.S. adults conducted at a rate of 275 per night. In addition to spending, the survey asks consumers their opinions on the U.S. economy and their personal finances. The Monitor began in May 2007 with a base index of 100. Surveys are conducted by Rasmussen Reports, an independent survey research firm (www.rasmussenreports.com).
