Application & Solicitation Disclosure for Variable Rate Private Consolidation Loan

Loan Interest Rate & Fees

Your starting interest rate will be between 4.240% and 7.240%.

After the starting rate is set, your rate will then vary with the market.

Your Starting Interest Rate (upon approval)
The starting interest rate you pay will be determined after you apply. It will be equal to the 3-Month LIBOR Index plus a Margin. The value of the 3-Month LIBOR Index varies with the market each quarter. The Margin is a fixed value that is set at the time of your application, based on your credit history, which repayment term you select and other factors including your cosigner’s credit history (if applicable). If approved, we will notify you of the rate you qualify for within the stated range.

Your Interest Rate during the Life of the Loan
Your rate is variable. This means that your rate could move lower or higher than the rates on this form. The variable rate is based upon the 3-Month LIBOR Index (as published in the Wall Street Journal). For more information on this rate, see the reference notes.

Although the interest rate will vary after you are approved, the interest rate will never exceed 18.000% (the maximum allowable for this loan).

Your rate will be calculated each quarter by adding a Margin between 2.240% and 5.240% to the 3-Month LIBOR Index for a 20 year repayment term by adding a Margin between 2.240% and 5.240% to the 3-Month LIBOR Index for a 10 year repayment term.
