

Quicken 2007-2008

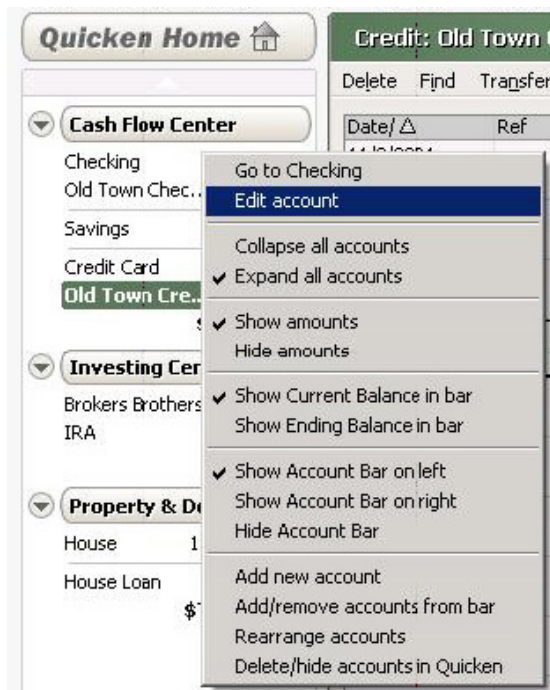

Instructions for Deactivating/Reactivating Your Discover Card Account

(1) If you haven't already, log in to the Account Center at Discover.com so we can automatically transfer your account preferences, including the ability to download your transactions into Quicken.

If you have been using your 16-digit account number to access your account, you will be prompted to create a user ID. If you already have a user ID, your existing user ID will be displayed. In either case, please note your user ID, as you will need it to update your Discover Card account in Quicken.

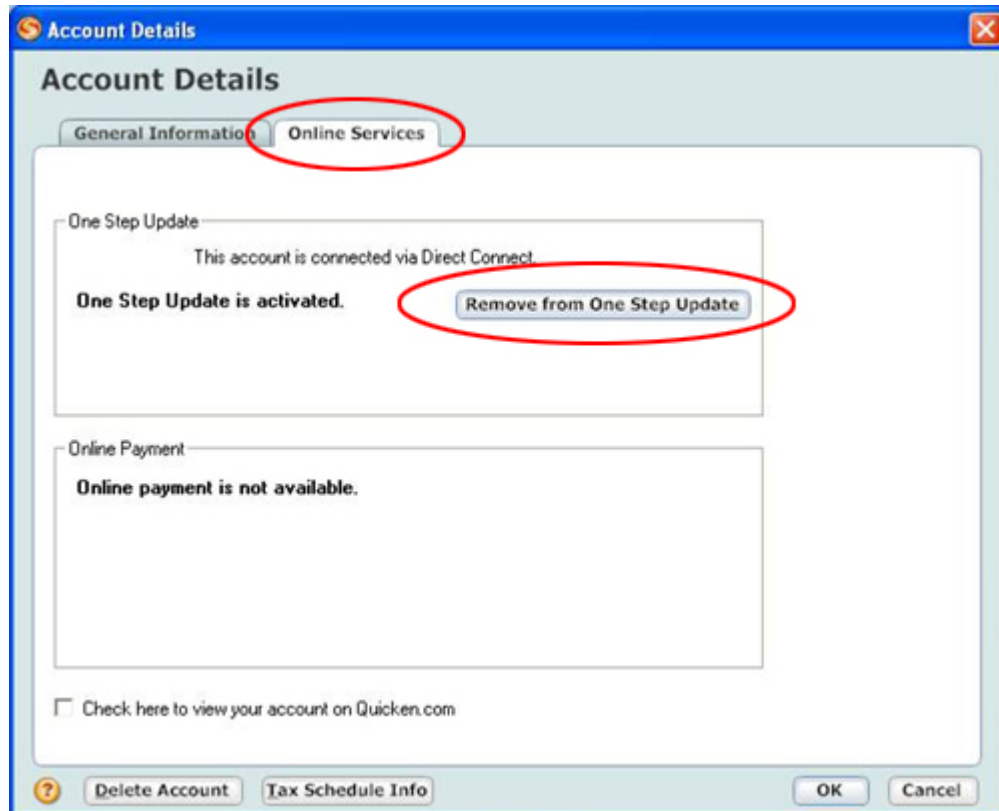

(2) Launch Quicken.

(3) From the list of accounts under **Cash Flow Center**, right-click on your Discover Card account and select **Edit account**.

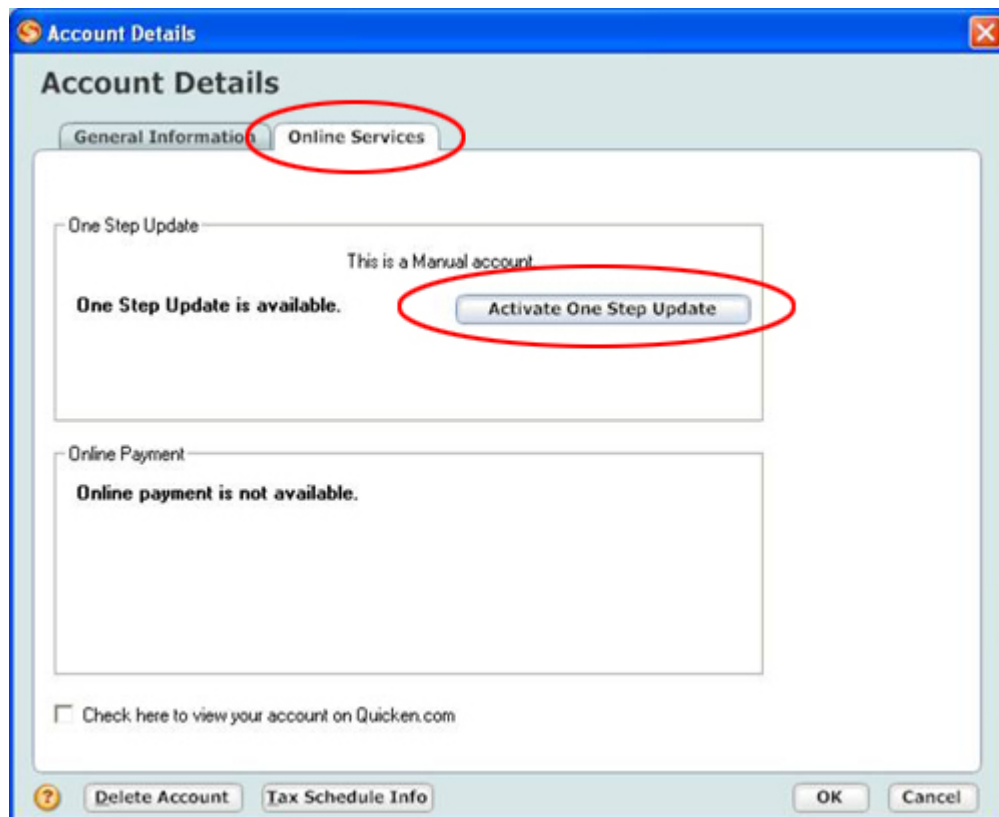

(Alternatively, from the **Tools** menu, select **Account List** and then click the **View Accounts** tab. Select your Discover Card account and click **Edit**.)

(4) An **Account Details** box will appear. Click the **Online Services** tab. In the **One Step Update** section, click the **Remove from One Step Update** button. Confirm the remaining prompts.

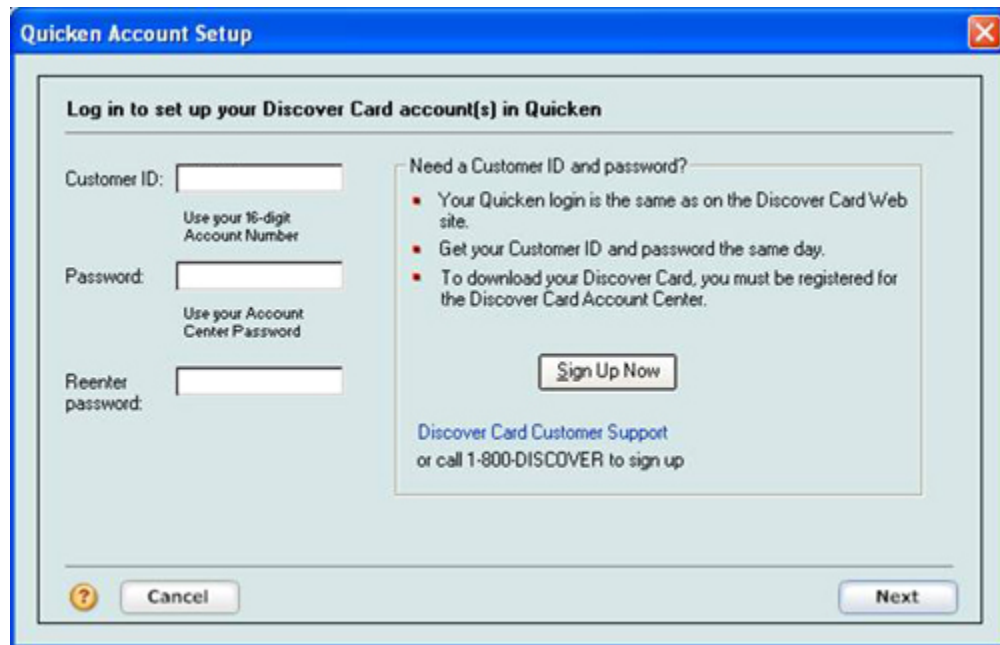

(5) Now you need to reactivate this Discover Card account. In the **One Step Update** section, click the **Activate One Step Update** button.

(6) A **Quicken Account Setup** box will appear. In the **Customer ID** field, **enter your Discover Account Center user ID**. This is the same user ID you use to directly log in to the Account Center at Discover.com. Do not use your 16-digit account number.

In the **Password** field, enter your Discover Account Center password. In the **Reenter password** field, re-enter your Discover Account Center password.

The image shows a Windows-style dialog box titled "Quicken Account Setup". The main heading inside is "Log in to set up your Discover Card account(s) in Quicken". On the left, there are three input fields: "Customer ID:" with a hint "Use your 16-digit Account Number", "Password:" with a hint "Use your Account Center Password", and "Reenter password:". On the right, there is a section titled "Need a Customer ID and password?" containing three bullet points: "Your Quicken login is the same as on the Discover Card Web site.", "Get your Customer ID and password the same day.", and "To download your Discover Card, you must be registered for the Discover Card Account Center." Below this is a "Sign Up Now" button. At the bottom right of the right section, it says "Discover Card Customer Support or call 1-800-DISCOVER to sign up". At the bottom of the dialog box, there is a question mark icon, a "Cancel" button, and a "Next" button.

(7) Finally, click **Next** and then **Done**. Quicken is now configured to download transactions from your new Discover Card account.
