

DISCOVER® WALLET PROTECTION

Discover® Wallet Protection Registry

Your Discover® Wallet Protection membership provides additional security with a one-call solution in the event your purse or wallet is lost or stolen. One call to Discover can assist in replacing your Discover card and, as an added benefit, we can assist if other cards in your wallet are lost or stolen too!

Discover will attempt to contact your credit issuers for credit, debit or ATM cards to report them lost or stolen and request they issue replacement cards on your behalf. And we'll always keep you up to speed on the results for your records.

To register your other cards for this benefit in the Discover Wallet Protection Registry:

- Log into your account at Discover.com/Wallet
- Add new cards in your wallet with their expiration dates
- Update existing card information such as card numbers and expiration dates

It's easy!

Just 5-10 minutes now could save you hours of hassle later with the Discover Wallet Protection Registry.
